

# Canal Fundación ONCE @ UNED Abierta

Alejandro Rodríguez-Ascaso (UNED)

Miguel Ángel Córdova (UNED Abierta, UNED)

Vicente Goyanes (Teltek)

Emmanuelle Gutiérrez y Restrepo (aDeNu, UNED)

# UNED

- Spanish National Distance University
- The second biggest university in Europe
- 210,000+ students
- 7,000+ disabled students
- 27 undergraduate programmes
- 73 Master programmes
- 1,400+ lecturers
- 600,000+ personalised exams per year

# UNED

# UNED Abierta

- UNED's OER and MOOC provider

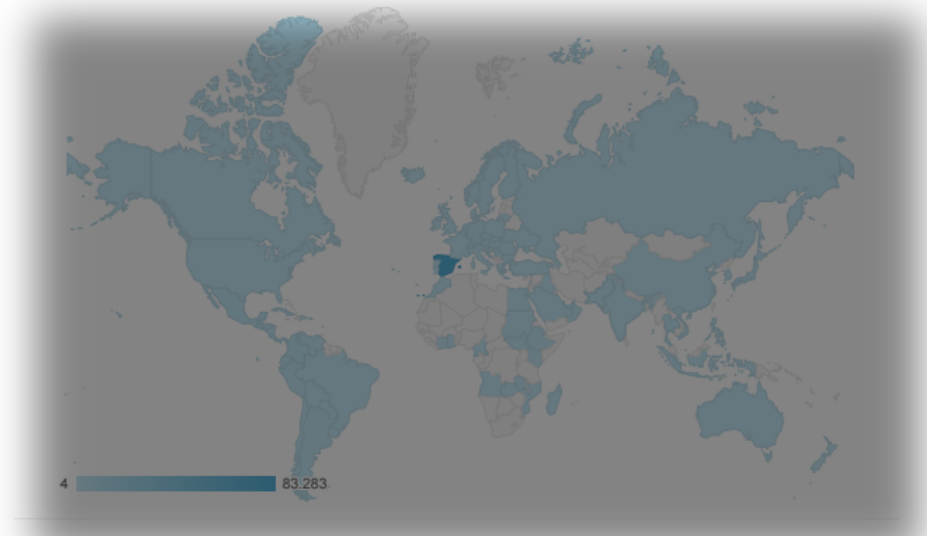

# UNED Abierta preMOOC era

- OER, OpenCourseWare provider since 2007
- 1,000,000 users
- 19,000,000 video views

# UNED Abierta

## MOOC era

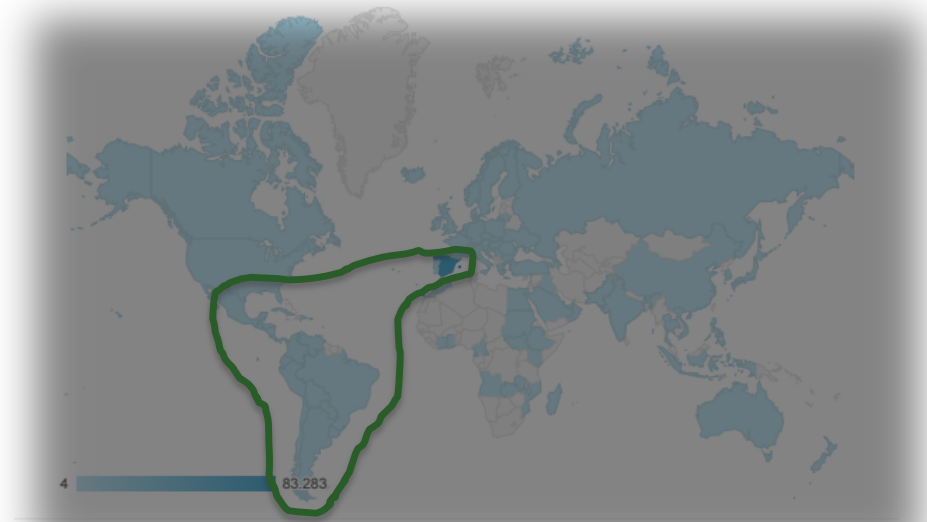

- OER, MOOC provider
- Kick-off: Dec-2015
- 100+ Courses
- 110,000+ users
- 150,000+ enrolments
- 100+ countries
- Thousands of issued certificates

# UNED Abierta

## MOOC era

- OER, MOOC provider
- Kick-off: Dec-2015
- 100+ Courses
- 110,000+ users
- 150,000+ enrolments
- 100+ countries
- Thousands of issued certificates

# Fundación ONCE

- Fundación ONCE and ONCE
  - main organizations of persons with disabilities in Spain.
- One of the main objectives of Fundación ONCE
  - to promote the creation of environments, products and services that are accessible.
  - Education is the future of accessibility!

# Canal Fundación ONCE @ UNED Abierta

- Canal Fundación Once' is
  - providing open, online training on **Universal Design**
  - targeting **all professionals**, either if they are
    - **already active** or
    - if they are training to become professionals in the **future**
- Funded by
  - Fundación ONCE
  - Ministry of Health, Social Services and Equality of Spain (Real Patronato sobre Discapacidad)

# Canal Fundación ONCE @ UNED Abierta: Oferta de MOOCs

- Human-Computer Interaction: Universal Design and Support Products
  - 500+ enrolments
  - 15 certificates
- ICT Accessibility and Public Procurement
  - 500+ enrolments
  - 8.5% certificates
- Accessible Digital Materials (Fall 2017)

# Ensuring accessibility of MOOC platform and courses

- Leading by example
- Practical reasons:
  - **The accessibility needs** of the workforce are **increasing**, as our population is aging
  - UNED has **7.000+ disabled students**, almost 50% of the HE disabled students in Spain

# Ensuring accessibility of MOOC platform and courses

- Accessibility is a key feature for Open edX and its community
- Huge effort has been done so far by the Open edX community
  - More accessibility features announced for Ficus and forthcoming versions
- However...

# Ensuring accessibility of MOOC platform and courses

- Canal Fundación ONCE has run a project to (1/2):
  - Define a **workflow** for producing **accessible learning materials &** activities in an efficient manner:
    - Online courses (MOOCs)
      - Videos
      - Text
      - Activities
    - Digital materials (ePUB 3.0)

# Ensuring accessibility of MOOC platform and courses

- Canal Fundación ONCE has run a project to (2/2):
  - ensure the **sustainable accessibility** of the UNED Abierta **platform**
- Joel Barciauskas @ edxconf 17, “How you can help”
  - Conduct experiments and research
  - Share your feedback...

# Platform accessibility: Vision

- Framework:
  - OER and MOOC accessibility. Holistic approach:
    - OLA! Project, together with IET, Open University UK
    - Accessibility to be taken into account through the whole process!
- Web accessibility standard:
  - WCAG 2.0 AA
  - Videos with Spanish Sign Language (AAA)

# Platform accessibility: Methodology (1/2)

1. Accessibility inspection, Emmanuelle Gutiérrez:
  - W3C WCAG “participant in good standing”
  - Invited expert in several W3C-WAI WGs
2. Evaluation with users on a pilot course:
  - Blind person, Person with low vision, Older person, Person with no mobility in upper limbs
    - JAWS 17 with Braille display,
    - VoiceOver under iOS 10.1.1,
    - Windows magnifier,
    - speech recognition + onscreen keyboard + cheek switch

# Platform accessibility: Methodology (2/2)

## 3. Monitorisation of accessibility during real course

### – **1,200 users:**

- Screen reader
- Mouse emulators
- CC users

– Errors reported through **forums**, **Help** section within the course, **email** support

– **Learning analytics**... working on that

Agile process, with **development** happening 1, 2, 3... and in between

# “Uned Abierta” MOOC – SaaS by TELTEK

# About TELTEK

- EdTech Company born at University of Vigo
- Open video solutions for teaching & learning:
  - Lecture capture and streaming.
  - MOOC-video production and MOOC platforms

# Worldwide Customers

of Sussex

# TELTEK in the “Fundación-ONCE” Project

- Goal: AA level for “UNED Abierta” (Dogwood)
- Tight Schedule < 2 months to 1st acc. course
- TELTEK tasks:
  - Fix the Issues
  - Provide Cloud infrastructure:
    - OpenEdX Infrastructure: Audit + Staging
    - Ticketing system: Redmine
    - Code management: GitHub fork + Gitlab theming

# Workflow

1. External accessibility Audit on “UNED-OpenEdX-Staging”
2. Issues to Redmine and JIRA-Edx
3. Developers Fixes issues -> Code to Github Fork or GitLab
4. Code to “UNED-OpenEdX-Staging” (Ansible)
5. QA (internal + External)
6. Code to “UNED-OpenEdX-Production”

# Current Situation

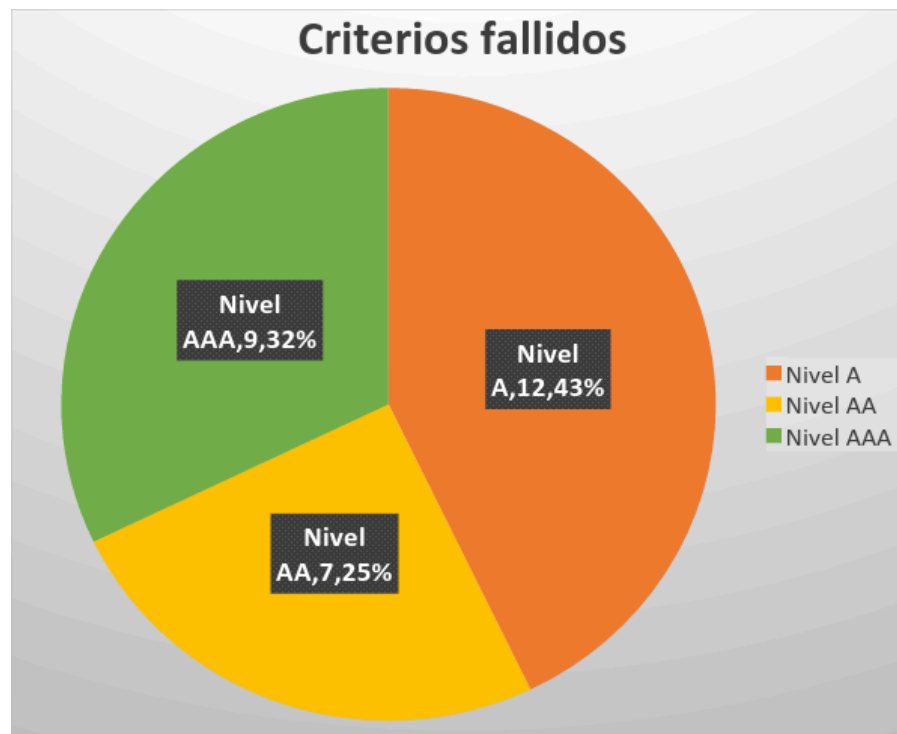

- Project finished & Client happy
  - 27 issues fixed (A: 17 / AA: 5 / AAA: 5 )
- Many issues filed on Edx-JIRA (accessibility project)
  - But low response
- **Code only in TELTEK's Fork**
- Planning to contribute ASAP
- **We meet F2F, finally**

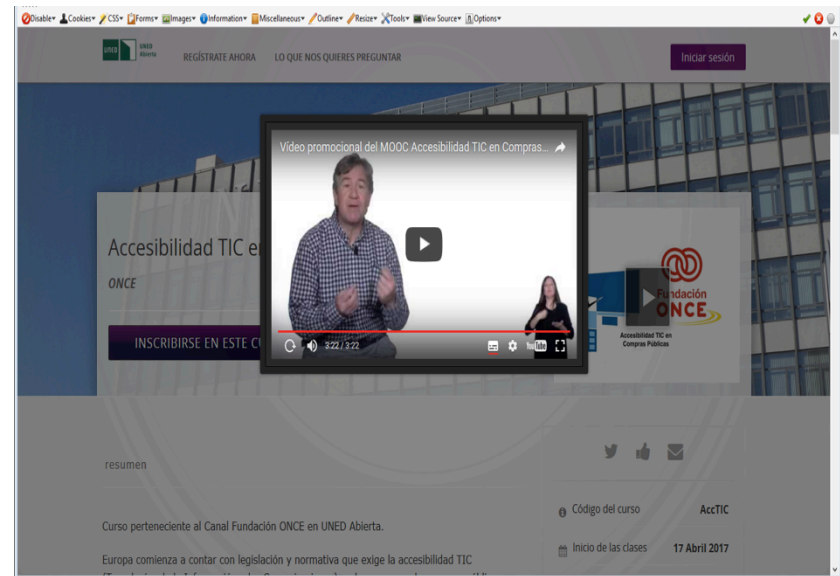

# Accessibility audit: Results

- Errors: 35 identified, 25 fixed
- 28 Failed criteria

# C 2.1.2 No keyboard trap (A)

- Spotted during Inspection
- Affects the About page
- Keyboard users can't leave the modal window by using ESC
- First users need to go through the whole set of player buttons, leave the player, and then they can use ESC
- We could not fix it.
- It seems that no modal windows are used in later versions of edX

# C 1.3.1 Info and relationships (A)

- Spotted during Inspection
- Affecting several pages across the platform
- Messages that have been coded as headings when they are not
- Affects users such as screen reader users, people with cognitive impairments, google bots
- Fixed: Messages marked as paragraphs, and headers have been styled through CSS

# Users who enrol but never access MOOC contents

- Spotted during **real course**
- OS:
  - macOS Sierra
  - IOS 10.0.2
- User agents:
  - VoiceOver
  - Both Safari and Chrome browsers

# Conclusions

- We are very happy to work with Open edX
- Improving accessibility is part of our mission
- We are willing to contribute
  
- Thank you!
