The screenshot shows the edX.org website homepage. At the top, there is a navigation bar with the edX logo, links for 'Courses', 'How It Works', 'Schools & Partners', and 'About', and a search bar with the text 'I want to learn about...'. Below the navigation bar is a large banner with a blue and purple geometric background. The banner text reads: 'Take great **online courses** from the world's **best universities**'. A pink button says 'VIEW ALL COURSES'. Below this, it says 'NEW! More for-credit courses just announced. Get a jump-start on college. >>'. To the right of the banner is a video player showing a classroom scene, with a 'VERIFIED' badge and a green checkmark. Below the video player, the course details are: 'UC BerkeleyX', 'ColWri2.1x', 'How to Write an Essay', and 'Starting Soon - September 14, 2015'. Below the banner is a blue bar with the edX logo, the ASU Arizona State University logo, and the text 'Introducing Global Freshman Academy Earn credit for your freshman year on edX'. A white button says 'LEARN MORE'. Below this bar is the text 'Our Most Popular Courses Starting Soon'. Below this text is a grid of four course cards. Each card has a 'VERIFIED' badge and a green checkmark. The first card shows a building and says 'UPValenciaX', 'BSP101x', 'Learn Spanish: Basic Spanish'. The second card shows a crowd and says 'HarvardX', 'CS50x', 'Introduction to Computer Science'. Imagining the Future of Higher Ed

Is the future of university unbundled, blended?

Why bundle university into 4 years, starting at age 18
Why bundle textbook, lecturing, assessment, tutoring

Unbundled Time: The Global Freshman Academy

EdX has partnered with Arizona State University to create the Global Freshman Academy, offering full university freshman level courses for credit

On the Global Freshman Academy from edX and ASU

TIME

“The College Education Game Just Got Changed.”

The New York Times

“The only upfront cost will be \$45 a course for an identity-verified certificate. Altogether, eight courses and a year of credit will cost less than \$6,000.”

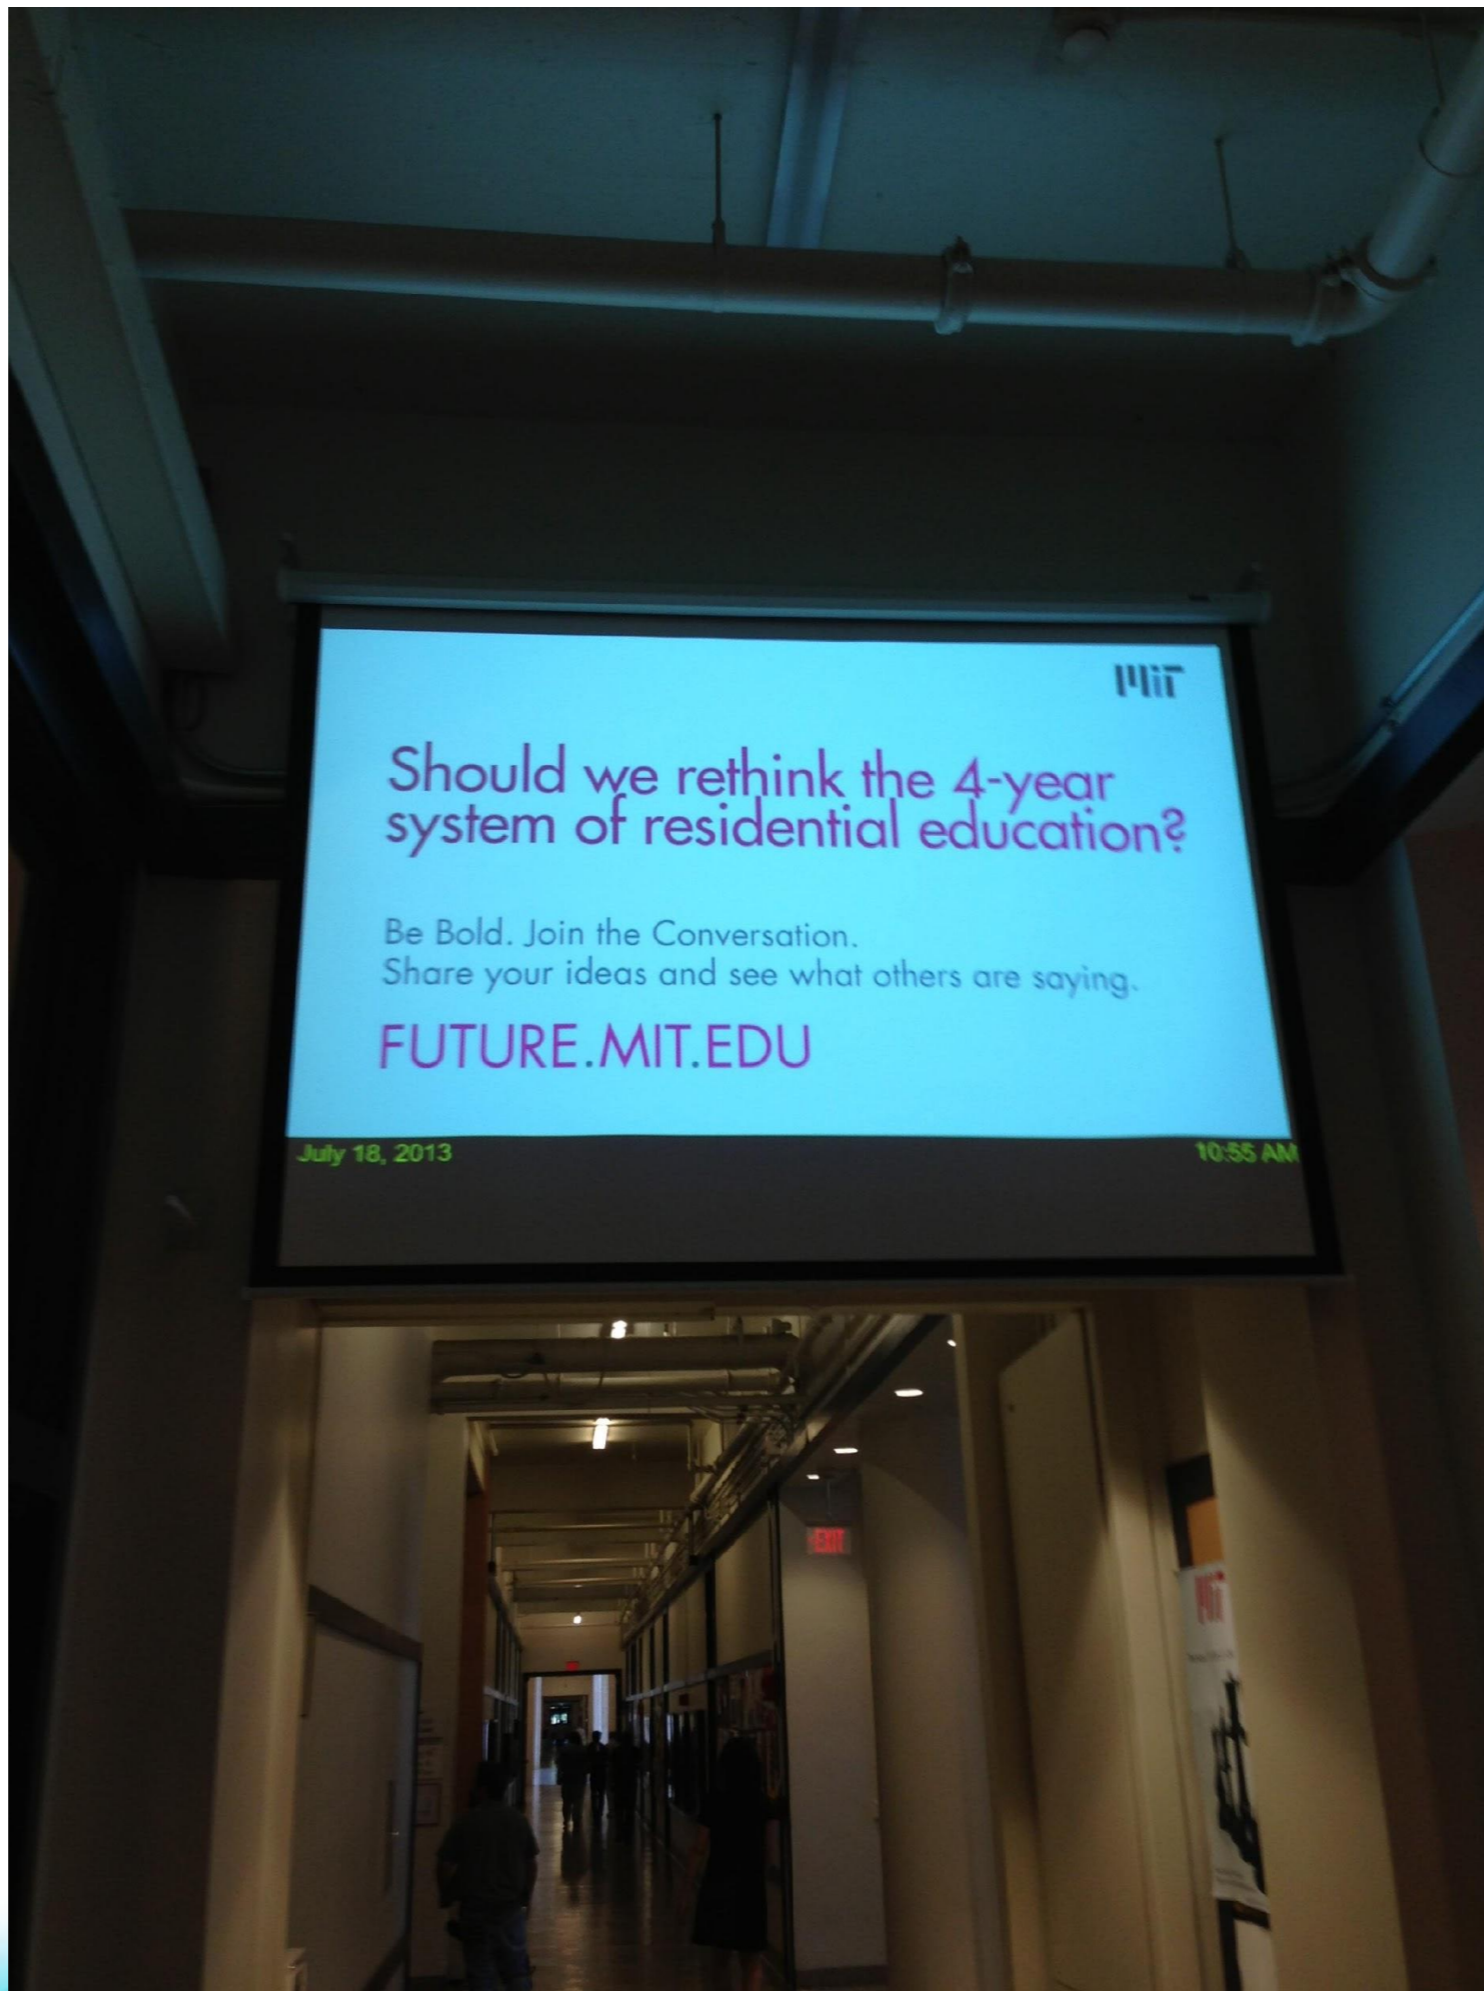

FORTUNE

“One of most potentially disruptive initiatives in education.”

The Washington Post

“The latest in a head-spinning series of technological innovations for higher education since the emergence of MOOCs in 2011 and 2012.”

MIT

Should we rethink the 4-year system of residential education?
