Navigating Barriers to Implementation of an International Medical Training Course in Developing Nations

Feroze Naina, Silvia Vaca, & Nicholus Warstadt

Training in developing countries

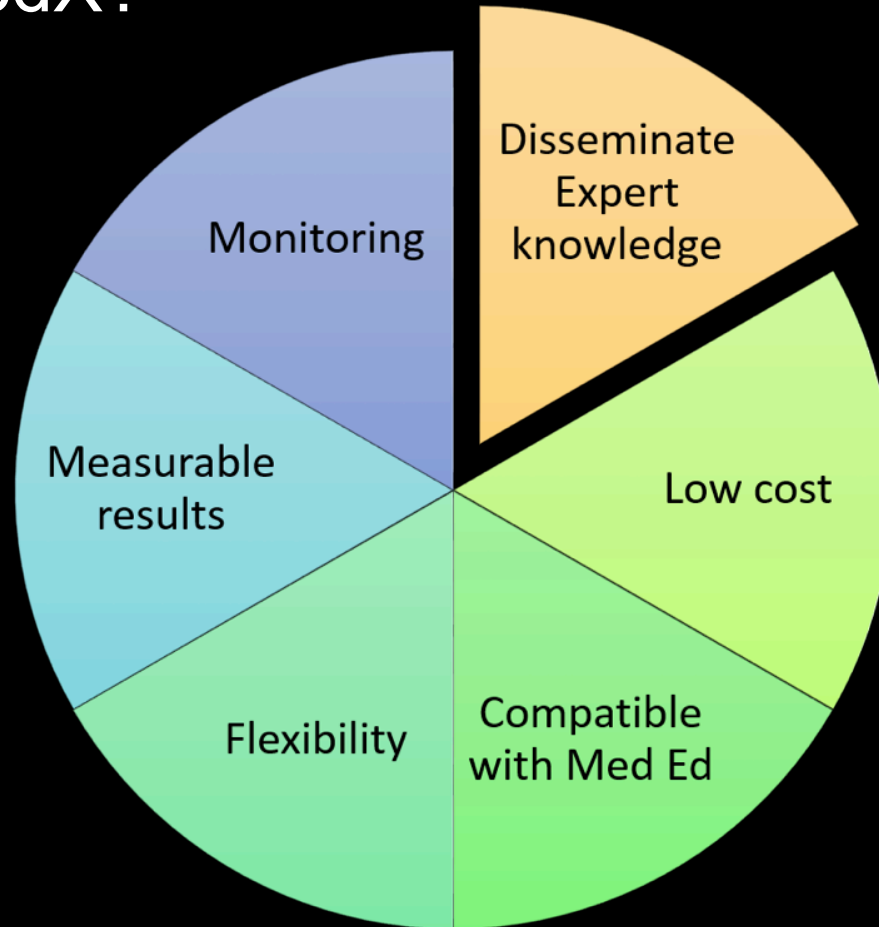

Open edX is a viable solution.

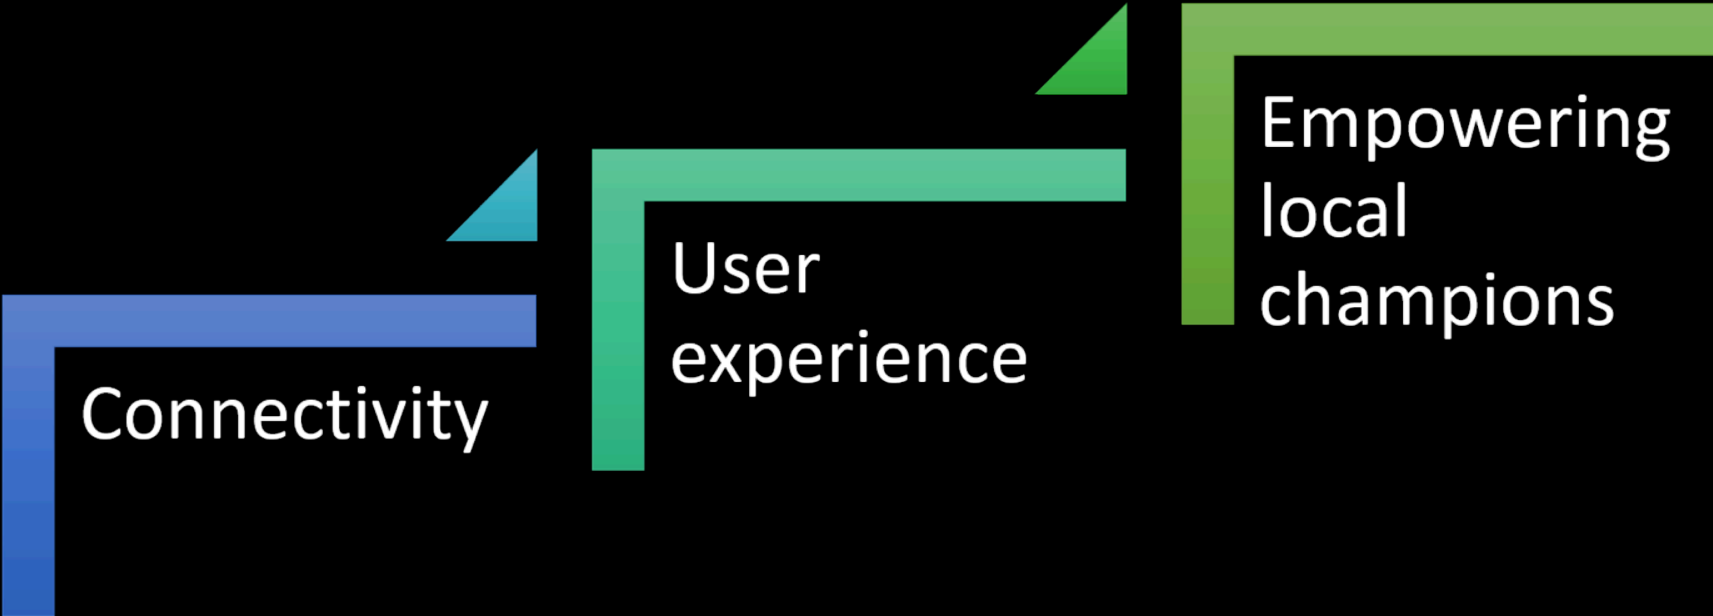

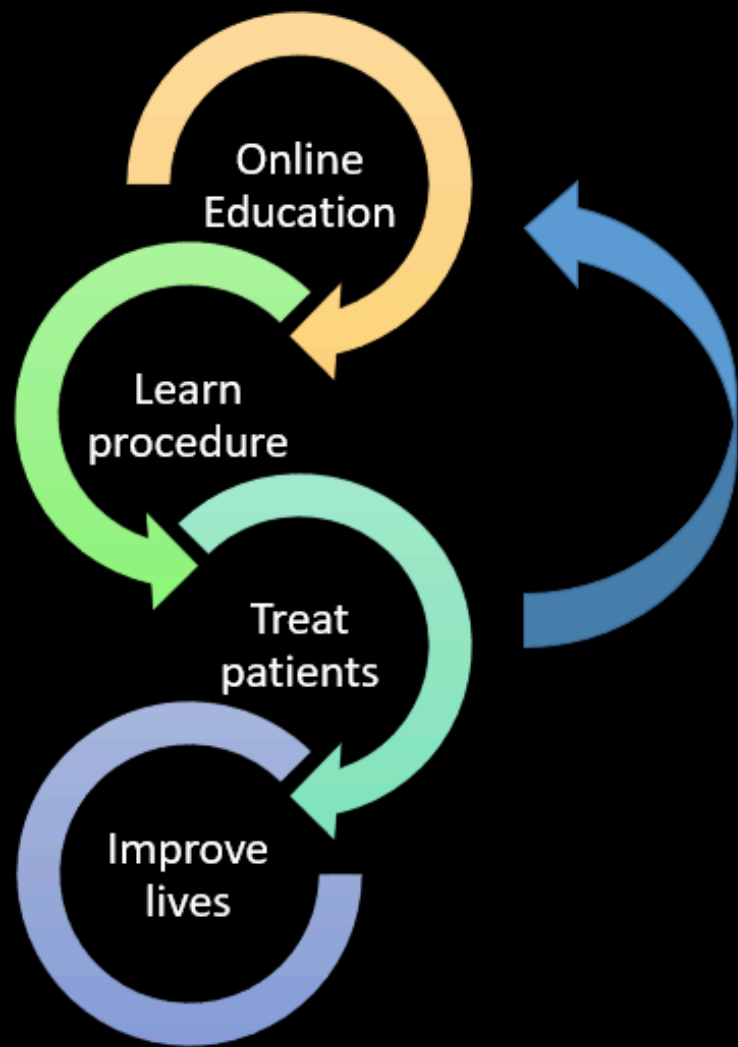

Prepare the learner to develop skills and contribute to patient care

Why Open edX?

Barriers to Implementation

Potential Reach

Cloud Hosting

- Status: Option exists
- Requires: Deployment through Bitnami – AWS or Digital Ocean
- Benefit: Quick deployment

LAN Server

- Status: Almost done
- Requires: Store video on local host
- Benefit: Training hub setting

Android App

- Status: Video only
- Requires: Modules for content & testing
- Benefit: Usability

Offline: USB/CD

- Status: Ideation
- Requires: Stand alone software
- Benefit: Largest potential user base
