Come
Say Hi!

- Visit us at our stand to learn more about Appsembler or to see a live demonstration
- Additional resources:
 - Website: appsembler.com
 - Email: info@appsembler.com
 - Phone: (617) 702-4331

What you'll learn

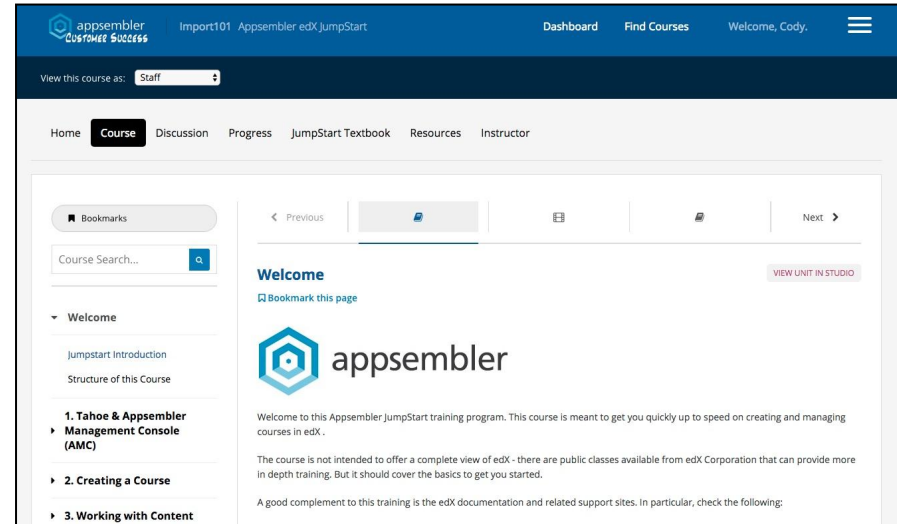

In this session we'll cover:

- Open edX structure
- Creating a new course
- Creating course content
- Best practices for course content

After the session we'll be hanging around to chat, answer questions and help out until they kick us out.

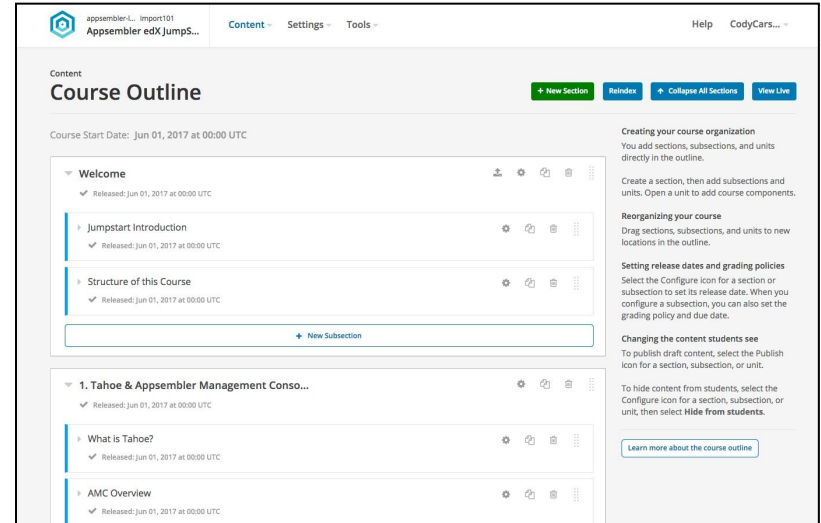

LMS

- The LMS, or Learning Management System, is where all learning and student management happens
- It's sometimes also referred to as the 'student view'

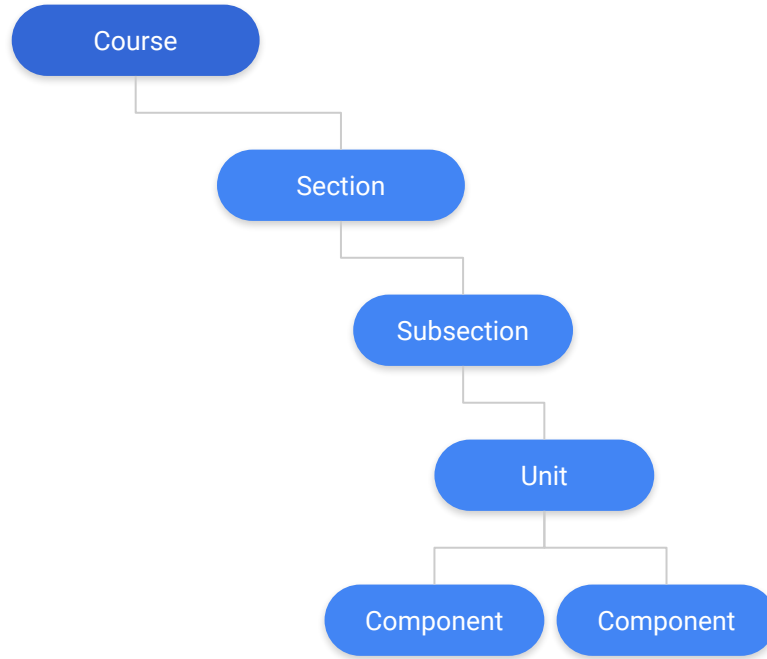

Studio

- Studio is where courses are built and authors are managed
- It's sometimes also referred to as the CMS, or Content Management System

Open edX Structure

✓ Released: Dec 17, 2015 at 00:00 UTC

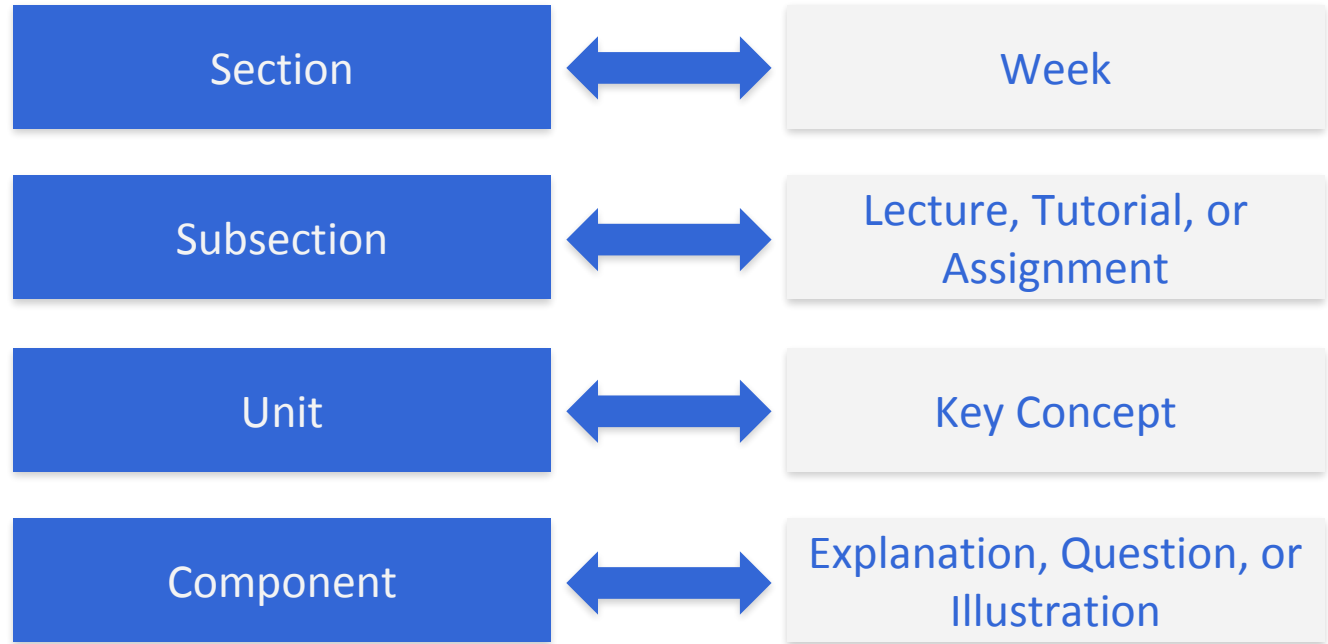

Learn

LMS View

The screenshot displays an LMS interface with several callouts:

- Units:** A blue callout points to the 'Units' tab in the top navigation bar.
- Sections:** A blue callout points to the 'Jumpstart Introduction' and 'Structure of this Course' items in the left sidebar.
- Subsections:** A blue callout points to the '1. Tahoe & Appsembler Management Console (AMC)' item in the left sidebar.
- Subsection:** A blue callout points to the 'Welcome' section header in the main content area.
- Components:** A blue callout points to the 'appsembler' logo and the 'Intro Video' section in the main content area.

Concepts

Time to create a site!

(unless you've got one already)

<https://appsembler.com/tahoe/trial>
/

Next

It's time to head into Studio and look at:

- Creating a new course
- Creating course content
- Best practices for course content

Follow along!

We would love your feedback!
