

Making the Grade: Using OpenEdX to build an online M.S. program

Elliott Visconsi
University of Notre Dame

STRATEGIC AIMS

1. ENHANCE TEACHING & LEARNING @ NOTRE DAME

2. EXTEND THE REACH & ACADEMIC IMPACT OF FACULTY, DEPARTMENTS, COLLEGES & UNIV.

3. ACCESS TO EDUCATION AND ENRICHMENT

BIG DATA BIGGER OPPORTUNITIES

DATA SCIENCE

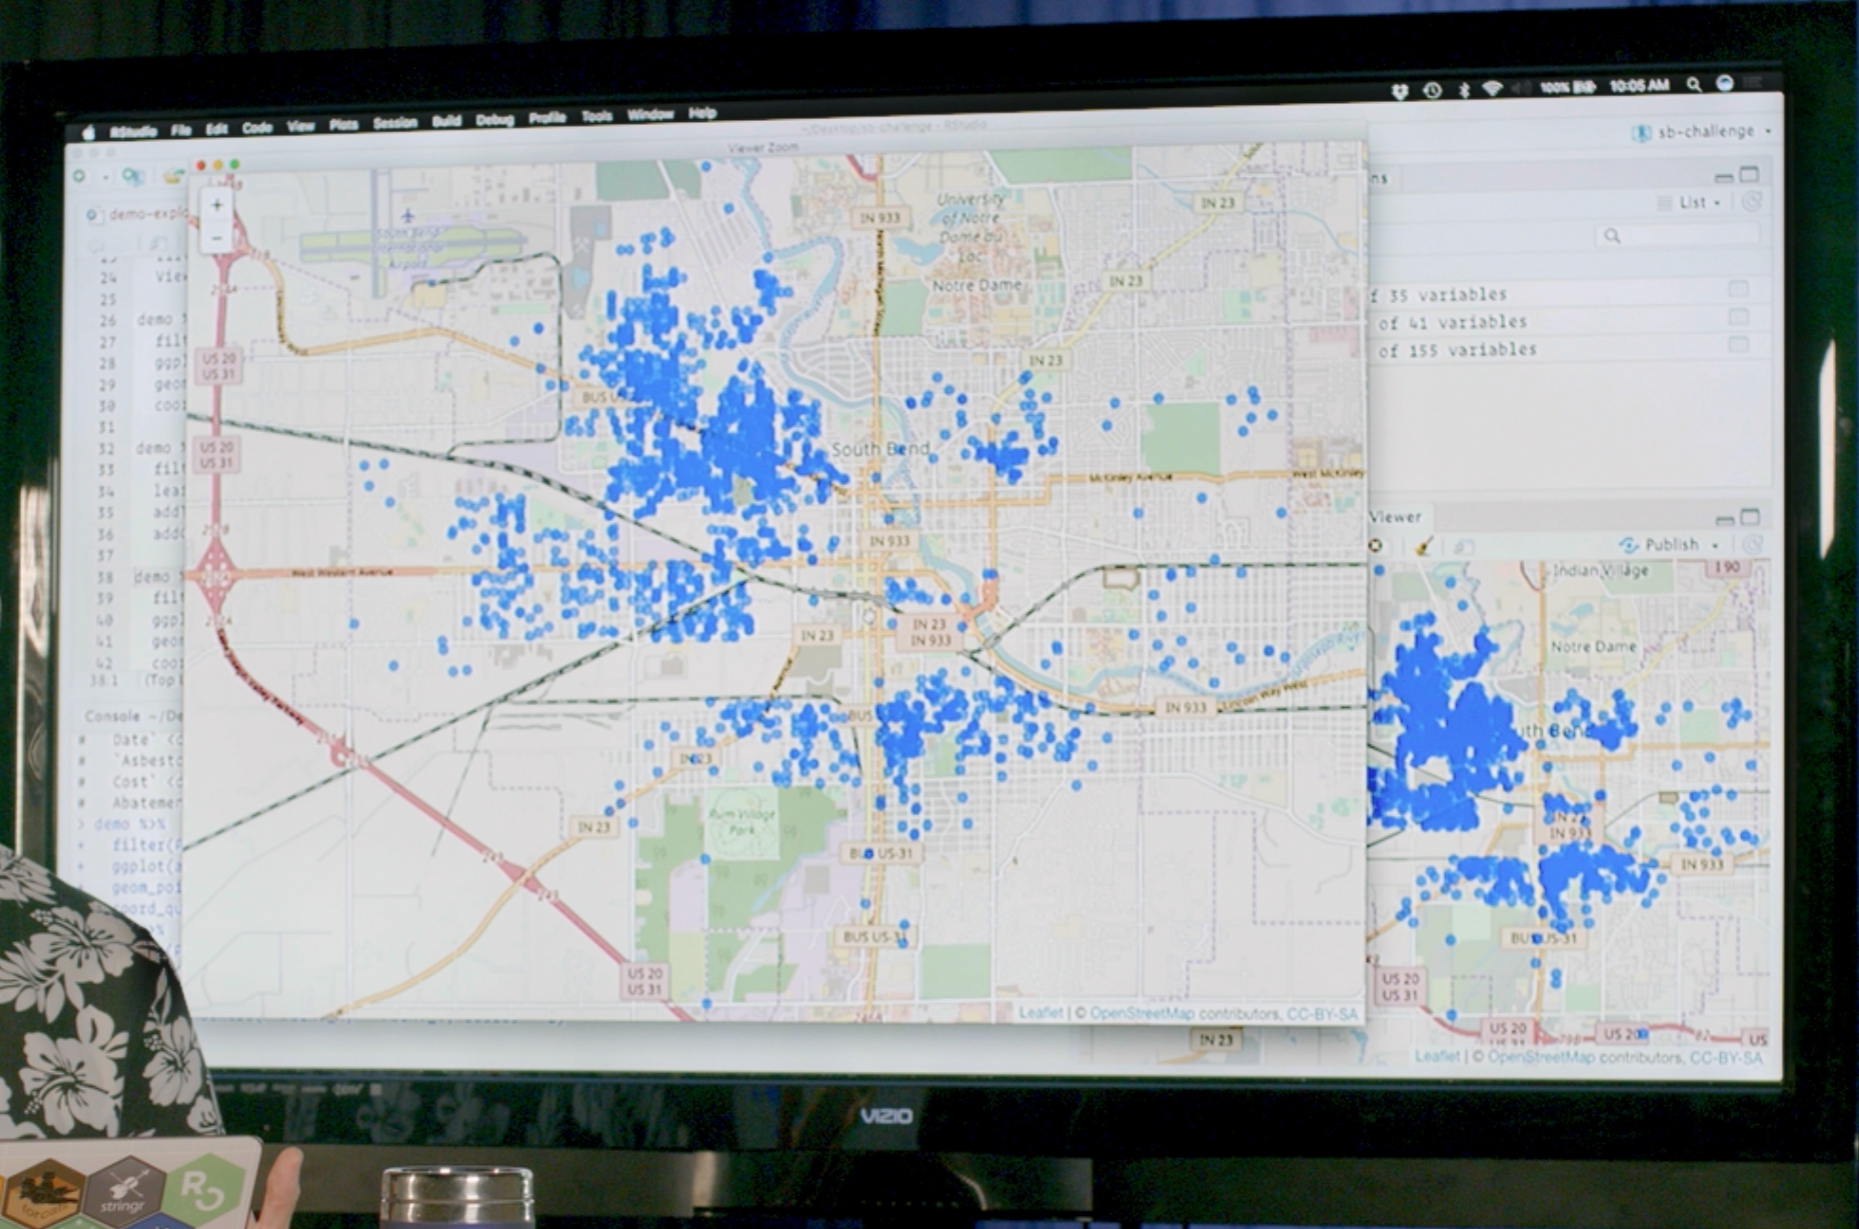

**R^2 is a measure of goodness of fit
of a linear model.**

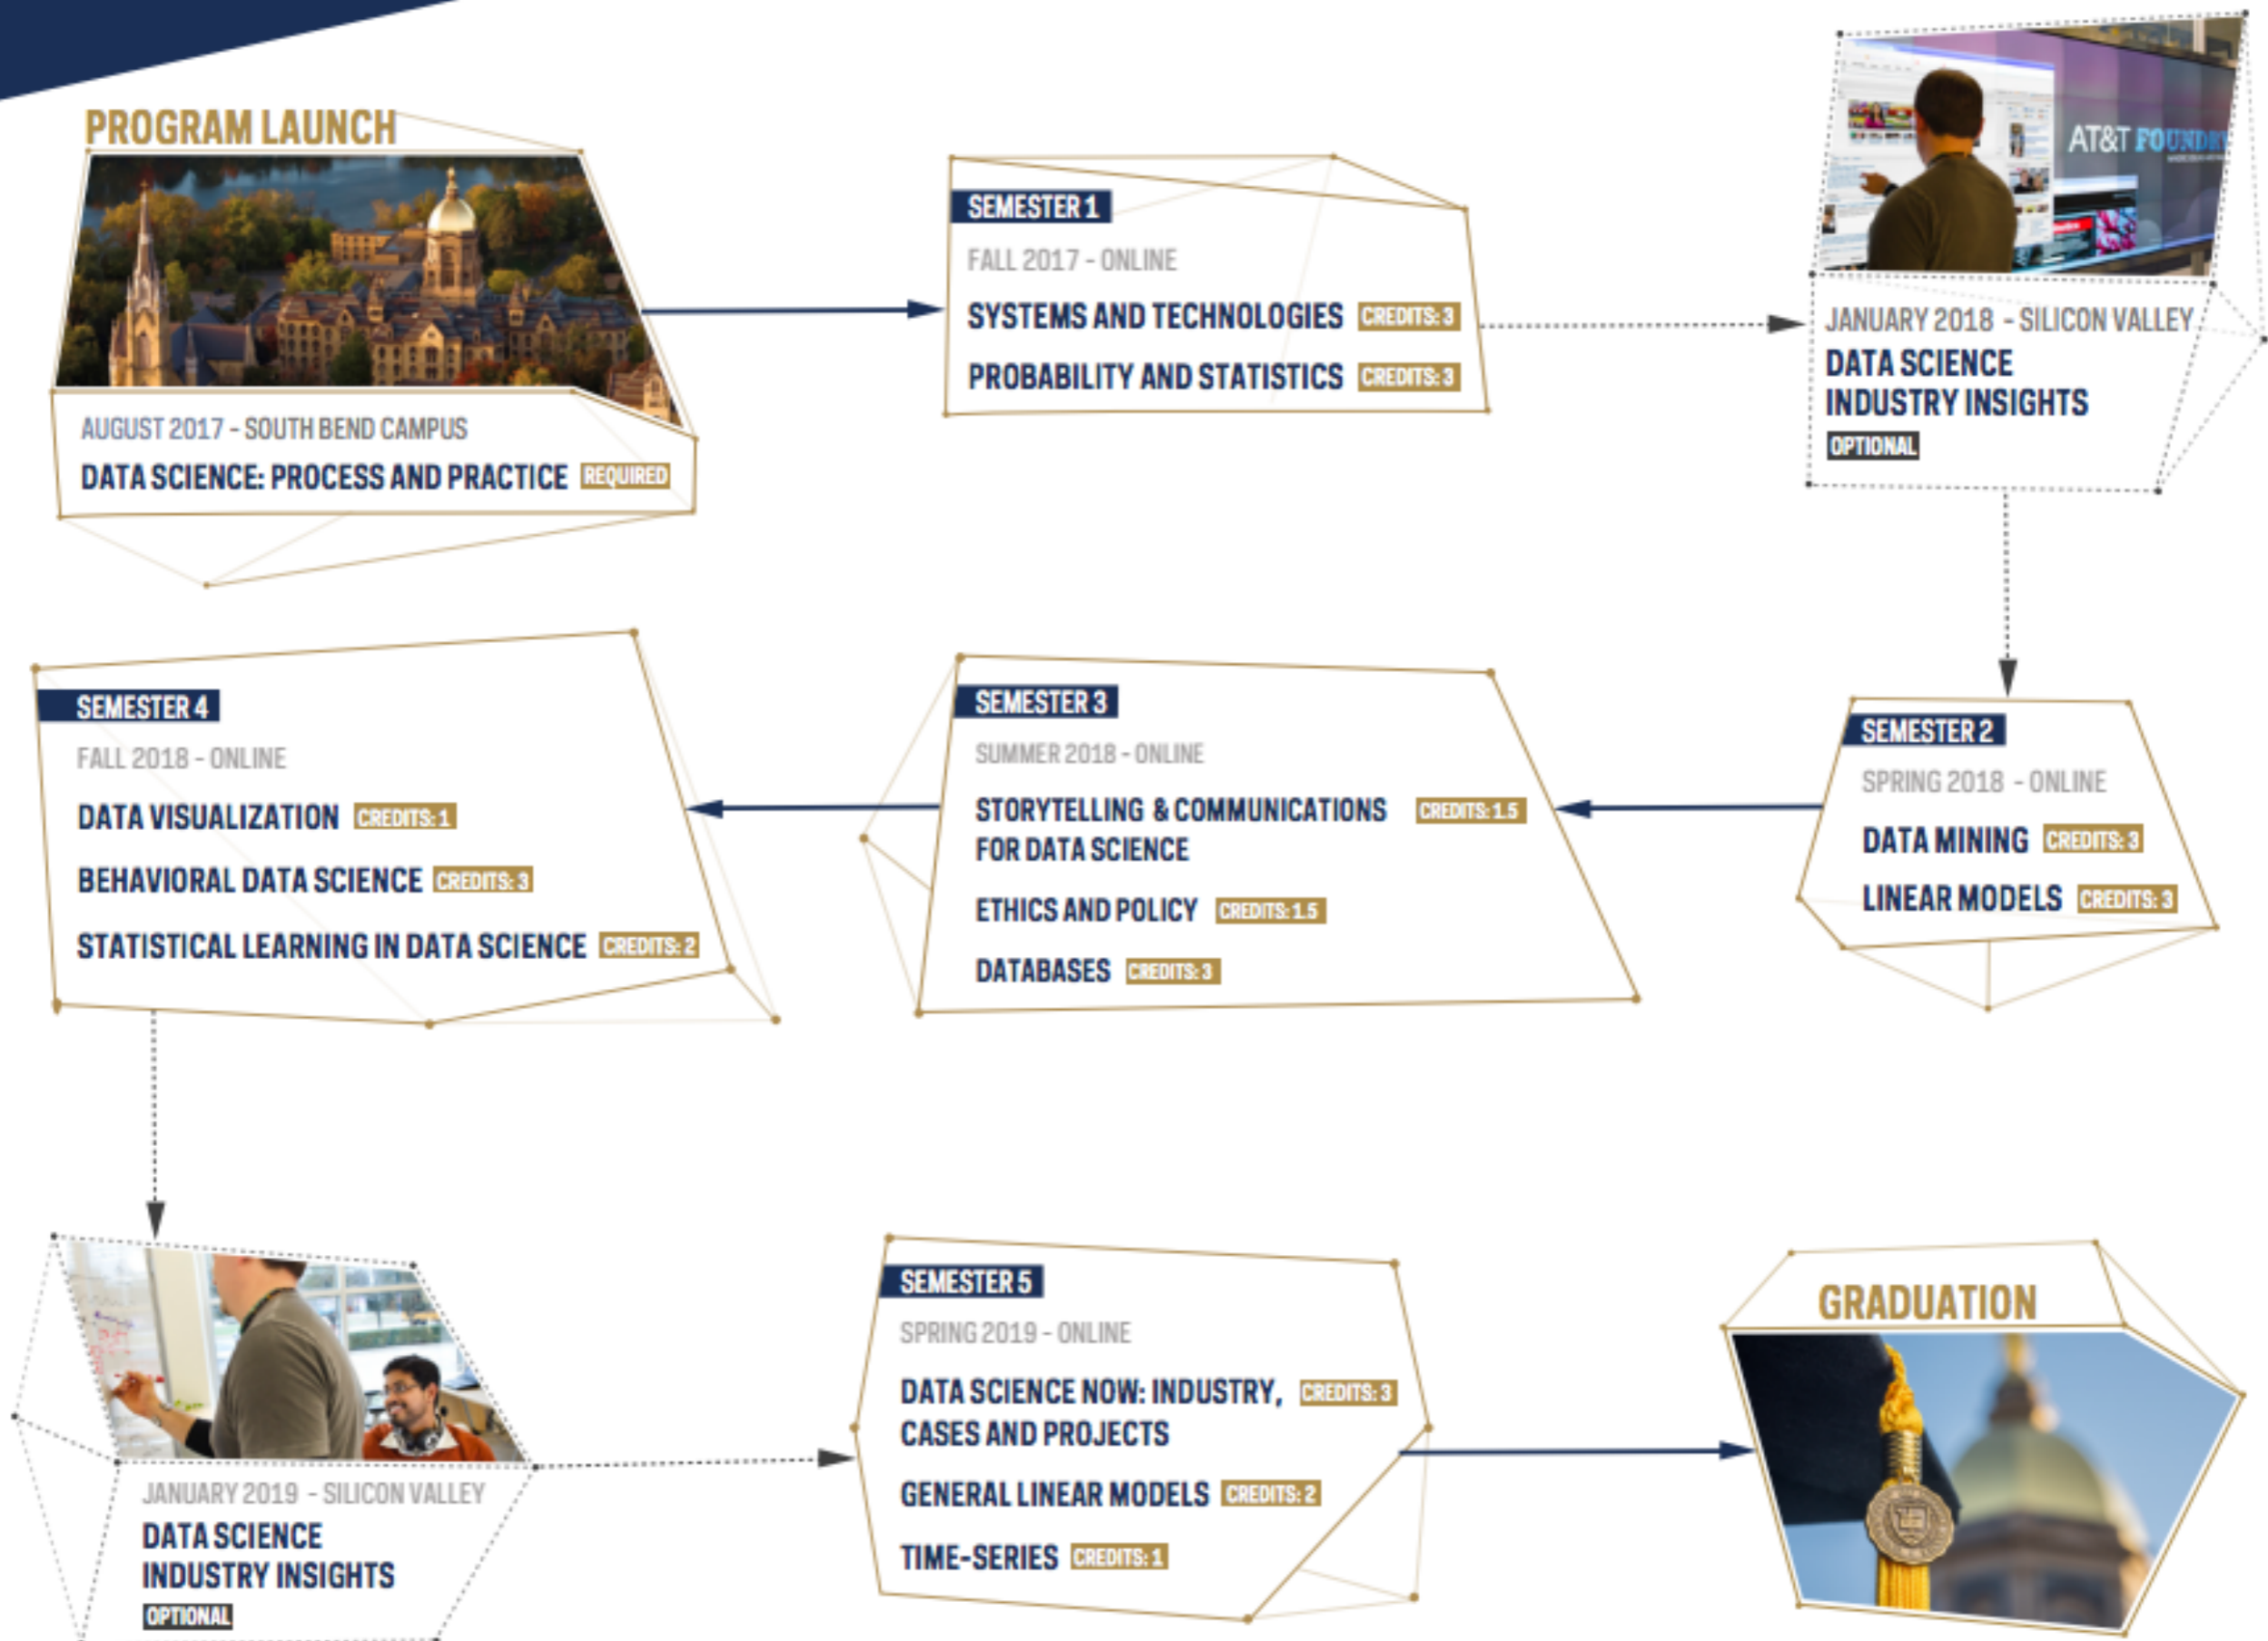

**It ranges between 0 and 1; the closer to 1,
the better the fit of the model to the data.**

PARTICIPATORY LEARNING LIVE WITH IMPACT INTERACTIVE CASES/SIMULATIONS

PLAN OF STUDY

MASTER OF SCIENCE IN DATA SCIENCE

Data Science is an interdisciplinary field that utilizes processes and systems to facilitate the precise analysis of massive amounts of information. Data scientists use this analysis to provide businesses and organizations with critical insights that shape decisions and solve problems. They are highly valued team members in major industries, including technology, finance, healthcare, management consulting, marketing, science, government policy and education. Join the renowned Notre Dame network and launch your data science career with a graduate degree that prepares you for success.

PROGRAM DETAILS

LOCATIONS
Online with exclusive immersions at Notre Dame & Silicon Valley

DURATION 21 months
CLASS FORMAT Small Evening Classes On & Off Campus

CURRENT ADMISSIONS WINDOW
Now - Apr 16, 2018

[LEARN MORE](#)

Our **multidisciplinary MS-ACMS Data Science** program gives students the edge they need to perform at the highest levels of the field by producing three-dimensional data scientists. Through programming, statistics, storytelling, ethics and behavioral data science coursework our MS-ACMS Data Science program students learn more than just technical quantitative skills. They learn to communicate effectively and act ethically.

[LEARN MORE ABOUT BECOMING A 3D DATA SCIENTIST](#)

THE NOTRE DAME EDGE

A leading research university with rigorous academics and a mission to be a force for good in the world.

The student-centered experience of small classes, faculty interaction, on-campus, industry and alumni connections.

A multidisciplinary program that develops quantitative and computational skills as well as effective communication and ethical judgment.

A state-of-the-art online learning environment, designed for the data scientist student.

HOW TO BECOME A DATA SCIENTIST

Data science is now influencing almost every department within every industry. From product development to sales and marketing to government operations, data scientists are emerging as important new players within businesses and organizations across the world. But what does it take to actually become one? Start your journey to becoming a data scientist by learning about data science uses, applications, job opportunities and education and training.

[LEARN MORE ABOUT BECOMING A DATA SCIENTIST](#)

A MULTIDISCIPLINARY PROGRAM THAT DEVELOPS QUANTITATIVE AND COMPUTATIONAL SKILLS AS WELL AS EFFECTIVE COMMUNICATION AND ETHICAL JUDGMENT

We call this a three-dimensional data scientist. A data scientist uses quantitative and computational skills to create value from data – transforming, organizing and analyzing it using computing, mathematics and statistics. But a three-dimensional data scientist complements quantitative and computational skills with the ability to communicate effectively and act ethically.

THE STUDENT-CENTERED EXPERIENCE

SMALL CLASSES, FACULTY INTERACTION, ON-CAMPUS EXPERIENCES AND INDUSTRY AND ALUMNI CONNECTIONS

This online program provides a social and collaborative learning experience centered around the student. We feature small class size, a bond between faculty and students, on-campus program launches, optional immersion weekends in Silicon Valley, industry and alumni connections and more. Learn more about our student-centered experience.

AN ONLINE EXPERIENCE CUSTOM BUILT FOR YOU: THE DATA SCIENCE STUDENT

We provide an online learning environment with every tool, but just for this platform to create exceptional learning outcomes. The uncompromising commitment to academic quality and personal interaction between faculty and students, for which Notre Dame is known, is at the heart of the program. It is modern, easy, and engaging – designed for the on-line study of data science. [Learn more about our unique online learning environment](#)

- ENGAGING**
Modern and easy to use – our online environment, built specifically for how data scientists learn, will engage you and improve your learning outcomes.
- PERSONAL**
Small class size, close student-faculty bond and a personal approach to online learning.
- STUDENT-CENTERED**
Online tools and content that reflect our high standards of academic excellence and student-centered focus.
- COLLABORATIVE**
Collaborative learning and interactions that mirror data science professional practices and enhance study.
- REAL-WORLD DATA**
An emphasis on applied projects, real data and case studies.

Open edX + Notre Dame

NOTRE DAME BRANDING

Elegant, branded design that fits over the standard Open edX platform resulting in a more unified learning experience.

The screenshot shows a course page for 'Lesson 1 - Getting Started'. The top navigation bar includes 'COURSE INFO', 'COURSEWARE', 'DISCUSSION', 'VIDEO', 'PROGRESS', 'TEAMS', and 'INSTRUCTOR'. A 'WELCOME, JEREMY' message is visible in the top right. The left sidebar contains a 'COURSE NAVIGATION' menu with sections for 'INTRODUCTION', 'EXAMPLE WEEK 1: GETTING STARTED' (selected), 'EXAMPLE WEEK 2: GETTING INTERACTIVE', 'EXAMPLE WEEK 3: BE SOCIAL', 'ABOUT EDX AND CERTIFICATES', and 'HELPING SECTION'. The main content area features a video player titled 'Connecting a Circuit and a Circuit Diagram' with a 'Download video' button. Below the video are 'Start Discussion' and 'Add a Post' buttons. At the bottom, there are 'PREVIOUS' and 'NEXT' buttons. The footer contains copyright information for 2017-2018 University of Notre Dame and social media icons.
