Slack for Open edX? Using Rocket Chat as an alternative to discussion groups
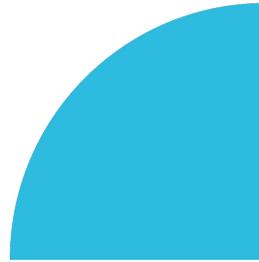

How we're implementing a new slack-style discussion integration "Rocket chat" within Open edX

Proversity

Agenda

This session is about...
- Why Open edX discussion groups needed to be improved upon
- What makes a good instant messenger
- Our answer: Rocket Chat and its features / functionalities

Why **Open edX** discussion groups needed to be **improved** upon?

- **Collaborative learning**
- **Experiential**
- **Asynchronously**

What makes a good instant messenger for Open edX?

- Open source
- Video / audio call capabilities
- Channels
- API
- Platform agnostic

Our answer: Rocket Chat and its features / functionalities.

- Channels and private messages
- File sharing
- Sending images and GIFs
- Hashtagging

Rocket Chat **Xblock.**
